Sketch your design

Draw a simple sketch to help you remember your car's design and explain it to others.

Modifications

Describe the change you made to your car's design for this test.

Data

Record the data you collected with charts, tables, or graphs

Data summary

Summarize the data you collected. This might be an average.

Next steps

Describe the change you plan to make next after this test.

What you learned

Describe what conclusion you have made about the design feature you were testing. Use your data to support your conclusion.
